Khant Zay Yar
(Icco)

Information and Communication Technology Student

About Me

I am a final year ICT intern student at Rangsit International College with a strong focus on networking. I have built a solid foundation in network fundamentals, routing, and switching, and earned the Cisco CCNA certification. I am passionate about designing secure and reliable network systems while continuously improving my technical skills.

Education

High School Graduate
2022-2023

I graduated from Kaung Htet Kyaw High School, where I built a strong academic foundation and developed my interest in technology. My high school experience helped shape my discipline, teamwork, and commitment to continuous learning.

Rangsit International College
2024 prsent

I am currently pursuing a major in Information and Communication Technology (ICT) at Rangsit College, where I am developing strong foundations in programming, networking, and web development. My studies focus on combining technical skills with problem-solving to build practical and innovative digital solutions

English Skill

Complete English proficiency in upper intermediate level Strong communication skills in both academic and professional environments, with the ability to present ideas clearly and confidently.

Experiences

KMD Computer Center and Completed CCNA Certificate
2023-2024

Hardware parts of PC, PC maintenance, troubleshooting and security complete certificate. And also complete CCNA certification from Genius Network Training .

Hackathon
2025

I was responsible for handling the frontend development of our hackathon project, a hotel booking analytics dashboard. I designed and built a responsive user interface to visualize booking data clearly and effectively. My focus was on creating an intuitive layout that enhanced user experience and data readability.

Teamwork and Research Papers
2024 present

I have gained valuable teamwork experience through multiple school projects, collaborating with classmates to achieve shared goals. Working in teams helped me improve my communication, responsibility, and problem-solving skills. I learned how to contribute effectively while respecting different ideas and perspectives.
